Akshit Sharma

Make machines more intelligent (Specialization in Artificial Intelligence and Machine Learning)

Chandigarh, Chandigarh, India

Summary

Akshit Sharma

Computer Science Engineer | AI & ML Specialist | Defense School Alumnus

About Me:

Dynamic and results-oriented Computer Science Engineer specializing in Artificial Intelligence and Machine Learning. A proud alumnus of Army School, with a passion for leveraging technology to solve complex problems.

Education:

Currently pursuing advanced studies in Computer Science at Chandigarh University, honing expertise in AI and ML applications. Previous education enriched by exposure to diverse perspectives and disciplined learning at defense establishments.

Expertise:

Proficient in implementing AI and ML algorithms to develop innovative solutions for real-world challenges.

Skilled in data analysis, predictive modeling, and pattern recognition to drive actionable insights.

Experienced in programming languages such as Python, Java, and C++, with a strong foundation in software development principles.

Professional Experience:

Seeking opportunities to apply technical acumen and creativity in AI and ML domains. Eager to collaborate with forward-thinking teams to push the boundaries of innovation and make a meaningful impact.

Personal Attributes:

Adaptive, resilient, and proactive, with a commitment to continuous learning and growth. Possess strong communication and

interpersonal skills, fostering collaboration and driving project success.

Let's connect and explore synergies in the exciting world of AI and ML!

Experience

Rank Spiders

AIML Engineer

May 2026 - Present (2 months)

Mohali

ZEVpoint

AI Developer Intern

March 2026 - May 2026 (3 months)

Chandigarh, India

- Developing AI-enabled backend services using Python, FastAPI, and modern AI tooling.
- Building automation pipelines and APIs to support EV charging operations and internal systems.
- Prototyping intelligent tools and integrating AI/LLM capabilities into business workflows.

SoftKiwi Technologies

Machine Learning Engineer

June 2025 - September 2025 (4 months)

- Applied NLP, Computer Vision, and Generative AI techniques to analyze healthcare datasets and support clinical decision-making.
- Built LLM-powered workflows using Retrieval-Augmented Generation (RAG) with embeddings and semantic search for unstructured medical data.
- Developed FastAPI-based backend services to deploy ML and LLM models for scalable inference.
- Implemented Explainable AI (XAI) methods and transfer learning pipelines for high-accuracy medical imaging classification.

Computer Society Of India CUSB

Member and Researcher

August 2023 - August 2025 (2 years 1 month)

Mohali district, India

MachIT

Artificial Intelligence Intern

November 2023 - February 2024 (4 months)

Remote

I contributed to the churn prediction project at MachIT by building and optimizing machine learning models to identify customers at risk of leaving.

Education

CHANDIGARH UNIVERSITY

BE CSE, Artificial Intelligence · (2022 - June 2026)

Army Public School (APS)

· (August 2022 - May 2026)
